MYSTERIOUS FIRE HAS COST SEVEN THOUSAND

NEARLY EVERY BUILDING ON SCHUCK FARM IN PALMYRA WAS DESTROYED.

KEROSENE SMELL WAS STRONG

Fire May Have Been of Incendiary Origin—Loss Will Reach About \$7,000.

The dwelling house and one small outbuilding are all that are left of the improvements on the beautiful big farm of Daniel Schuck, in Palmyra township. The fire flared up yesterday in broad daylight and ravished the place of probably \$7,000 worth of buildings, hay, stock, grain, machinery, etc. It is reported that there was \$4,000 insurance, in the Palmyra Co., but the loss will exceed that amount by several thousand.

The charred carcasses of four big horses, worth nearly \$1,000, a fine bull and five calves lay in the still smoking ruins; 120 tons of hay was totally destroyed. Out of 1200 bushels of oats not more than 200 bushels were scooped from the debris this morning by the neighbors, who have been working heroically to do what they can for the Schuck family. All of the good machinery, enough to completely equip a big farm, including a new wagon, bought last week, binders, mowers, corn plows, potato planters, etc., and four bugles and countless other articles of value were consumed by the flames. The barn itself was a substantial, well equipped building, size 50x72. Not even the foundations are left standing. The other buildings burned are the hog house, in which three or four hogs perished; the milk house, tank house and the corn crib, which probably contained 100 bushels or more of corn. The big straw pile was also burned.

Suspect Incendiary.

The circumstances surrounding the burning of the Schuck barn are very peculiar, and it is suspected that a fire-bug may have fired the place.

The fire was discovered by Mr. and Mrs. Will Drew, who were driving past. They saw the smoke coming through the shingles, and a small blaze. While they looked, however, the entire barn seemed to burst into flame, with fire in all parts of it. The Schuck family, most of whom were away at the time, were notified and they and the neighbors did all they could to save the buildings, but found themselves powerless. They managed to put out a fire on the windmill, after the shaft had been burned. It was impossible to get in where the stock was, on the ground floor.

Mrs. Drew stated that she noticed a very strong smell of kerosene and some of the others corroborated her. The smoke from the fire was very black, as from a kerosene fire. Some of the neighbors say their first knowledge of the fire was an explosion, which was heard a great distance from the farm. This may have been the sound of a falling floor. The only kerosene in the place was in a small, unlighted lantern hanging in the lower part of the barn, and there was no gasoline there.

Saw Prowlers.

It is reported that the Schuck family have seen men prowling about the place, and recently an attempt was made by some one to steal some ferrets, seven of which were burned in the fire. A night or two ago some men were discovered in the yard and after chasing them out members of the family found the marauders had been in the milk house and tipped over and spilled the cans of milk. Whether these men could have set the fire is in doubt.

There have been so many fires in this vicinity recently that the farmers are becoming suspicious. There was a fire a few weeks ago on the Mitchell farm, in the house only a couple of hundred yards from the barn that was burned yesterday.

Attorney H. A. Brooks went to Chicago this morning.

Views from German and English cities will offer comparisons of the methods employed abroad with those of our own country.

Few cities have better opportunity to be known as beautiful cities than Dixon and the citizens of this city ought to be informed concerning such movements in other cities.

Sulzer Is Ousted From Governorship

NEW YORK OFFICIAL CONVICTED ON THREE COUNTS AND LOSES HIS OFFICE.

OCCURRED AT NOON TODAY

Impeachment Court Finds Governor Guilty of Falsifying, Perjury and Deceit—Ousted, 43 to 12.

Albany, N. Y., Oct. 17.—Special to Telegraph.—William Sulzer was formally removed from the office of governor of the state of New York at 11:50 o'clock today by the votes of more than two-thirds of the high court of impeachment that convicted him of falsifying in a public record, of perjury and of attempting to induce another to commit perjury. The vote was 43 to 12. Chief Cullen and Senator Wend did not vote.

Martin H. Glynn, formerly lieutenant governor, is now governor of New York, and Robert G. Wagner, president of the senate, is now the lieutenant governor.

Albany, N. Y., Oct. 17.—Governor William Sulzer was convicted on Thursday by the high court of impeachment on three counts. The final vote was 39 to 18. He was declared innocent of the charges contained in article 2.

Today he will be removed from office in this state in the future unless there is a substantial change in the informal vote reported to have been taken by the court on these questions in secret session.

For some reason it was expected he will be found not guilty on the other four articles still remaining to be voted upon when the court adjourned. Lieut. Gov. Martin H. Glynn, who has been acting governor since the impeachment of Sulzer, will become chief executive of the state. He is an Albany newspaper owner, Robert F. Wagner, a New York attorney, will become lieutenant governor. He is the majority leader in the senate.

Bare Majority.

The vote on articles 1 and 2 was 38 to 18, a bare two-thirds majority. The former article charges that the governor falsified his statement of campaign contributions; the latter that he committed perjury in so doing.

The vote on article 3, which charges the governor bribed witnesses to withhold testimony from the Frawley investigating committee, was unanimous in favor of the governor.

The vote on article 4 was 43 to 14, six members changing their votes on articles 1 and 2 from "not guilty" to "guilty" and two from "guilty" to "not guilty." This article charges that the governor suppressed evidence by means of threats to keep witnesses from testifying before the Frawley committee. Among these was Duncan W. Peck, state superintendent of public works, who testified at the trial that the governor had asked him to commit perjury.

Secret Vote to Remove.

The secret informal vote to remove the governor was said to be 43 to 14, the same as on article 4, and the vote not to disqualify him was said to be unanimous.

Article 6, which charges that the governor committed larceny in speculating with his campaign contributions, was said not to have been sustained in the secret session by a vote of fifty declaring the governor not guilty, to seven against him.

Article 6, which charges he prevented a particular witness, Frederick L. Colwell, from attending the sessions of the Frawley committee; article 7, that he threatened to use his office and influence to affect the vote or political action of certain assemblymen, and article 8, that he corruptly used his influence to affect the prices of securities on the stock exchange, were reported also to have been decided in favor of the governor in the secret session by a practically unanimous vote.

Presiding Judge Edgar M. Cullen, who will shortly retire from the bench, voted "not guilty" on every article and rendered a long opinion in explaining his votes. The eight other judges of the court of appeals were divided. On articles 1 and 2 Judge Willard Bartlett, Emory A. Chase and William E. Werner voted for the governor, and against him voted Judges Frederick Collin, William H. Cuddebach, John V. Hogan, Frank H. Hisecock and Nathan L. Miller, making a division among

them of 5 to 3 against the governor. On article 4 Judges Bartlett, Chase and Werner changed their votes from "not guilty" to "guilty," and Judges Hisecock and Miller changed from "guilty" to "not guilty," making against him a division of 6 to 2.

According to the plan under consideration, the other four counts will be quashed, although some of the senatorial judges, responding to the implacable determination of Tammany hall to mete out to Mr. Sulzer the fullest punishment possible to impose, may ask for a vote on at least one of the remaining articles when the court convenes.

Formal Sentence.

The plans for imposing the formal sentence upon Mr. Sulzer made it possible for his only appearance before the high court of impeachment when the procedure has reached the stage of voting for his actual removal. Not once since the proceedings were begun against him a month ago has Mr. Sulzer even been in the capitol building. He declined to take advantage of the opportunity to appear as a witness in his own behalf.

The verdict of the court of impeachment will be filed with the secretary of state. That official will serve a copy of it upon Mr. Sulzer. The deposed official will be given a reasonable time, perhaps two or three days, to make such arrangements as he may plan to vacate his office in the capitol and the mansion provided by the state for the habitation of its governors and their families.

Will Issue Statement.

The only certainty regarding the plans of Mr. Sulzer that can be learned is that he will issue a statement addressed to the people of the state, in which he will attack the forces that have driven him from public life and present such defense of his proven acts as was expected he would make from the witness chair in the tribunal which has just convicted him.

Presiding Judge Cullen, who voted not guilty throughout, announced that he had prepared a long opinion, which treated articles 1, 2 and 6 together.

"I am constrained to find," he said, "that the respondent did take advantage of his nomination and candidacy for office to seek personally to enrich himself by diverting contributions which he received for campaign purposes. I find that the respondent knowingly signed false campaign statement. And I find that he did verify this statement under oath knowing it to be false."

"However, I must vote not guilty."

Speaking of article 4, the larceny charge, Judge Cullen said:

"The use of this money for his own purposes for political wards is not an offense, and I believe that he had the legal right to use the money for any purpose he saw fit. I don't think he could be held guilty of larceny."

The presiding judge further declared that in signing his campaign statement the governor could not be considered guilty of legal perjury.

"But I am frank to say," he continued, "that if these acts were committed after he had taken office, he should be considered morally unfit to hold office."

Judge Cullen held further that if article 1 was sustained it would open the door to convicting a man for offenses committed in private life long before his election.

"Men have committed serious crimes," he said, "and subsequently risen to high public office and conducted themselves properly."

OLD RESIDENT HERE.

J. K. Burkett, who with his wife is visiting relatives in North Dixon, was one of the early residents of this city. In the '60's he was employed in Dixon for several years. Later he went into school work in the Hawaiian Islands and for 24 years was superintendent of a government school on one of that group. He was later made school inspector with a territory covering several islands and towns, including Honolulu. Poor health forced him to give up work and he is now enjoying the more severe but invigorating climate of the U. S. He says he is greatly pleased with the improved appearance of Dixon and hopes to spend much of his time here.

The house had been beautifully decorated in pink and green and the table also. In honor of the birthday of the guest of honor a cake illuminated with 25 pink and green candles was cut.

As a token of esteem the guests presented Mrs. Forman with a fine linen tablecloth, and left after a most enjoyable evening and wishing her many happy returns of the day.

Johnson-Fassig

In our last issue we told of the marriage of Miss Fassig and Joel Johnson, Wednesday, Oct. 8th at the German Lutheran church of this township.

Wishing to show the high esteem in which the young couple are held by their many friends and neighbors in West Brooklyn, they gathered at the Fassig home home Sunday evening after their return from the wedding tour and showered them with many useful and ornamental gifts. The evening was spent in playing progressive euchre and there never was before a party according to the memory of all present, a party where the games were so interesting and everyone winning so equally.

The women decided their prize winners easily, Mrs. W. J. Long winning first prize and Mrs. J. F. Bernardin winning second prize, which was given instead of the consolation prize.

Among the men folks, however, we have four persons tied for both the first and second prizes. Those tied for the first were Herman Knauer, George Fassig, John Fassig and C. H. Oester. In the play off Herman Knauer was the winner. Messrs. Joel Johnson, J. F. Bernardin, Oliver L. Gehant and A. L. Derr were in a tie for second prize and in deciding this squabble J. F. Bernardin was the winner. After the games a delicious lunch was served by the neighboring ladies and everyone ate heartily and enjoyed the repast very much. Not until everyone had extended congratulations and best wishes to the couple did they return to their homes. It was a very pleasant evening for every guest present and the array of presents served as the means of making the event doubly enjoyable to Mr. and Mrs. Johnson, who appreciate very much the kindness of their friends.

Foxy Artist.

The friend had dropped in to see D'Auber, the great painter, put the finishing touches on his latest painting. He was mystified, however, when D'Auber took some raw meat and rubbed it vigorously over the painted rabbit in the foreground. "Why on earth did you do that?" he asked. "Why, you see," explained D'Auber, "Miss Millions is coming to see this picture today. When she sees her pet poodle smell that rabbit and get excited over it she'll buy it on the spot."—Ladies' Home Journal.

Denunciation in the Drama.

Henry Miller, the actor-manager, whose genius far exceeds his patience, had just fired an actor whose denunciation had been unsatisfactory. "You see," he said, in explanation, "you cannot make a silk purse out of the caudal appendage of an animal which expresses its joy with a grunt and its grief with a squeal."—Popular Magazine.

OLD-TIME GIANT

OF ADVERTISERS

A good many people here, as in the rest of the country, rubbed their eyes yesterday and harked back a score of years when they read the newspapers, for yesterday, for the first time in many years, the one-time familiar legend, "St. Jacobs Oil Conquers Pain," stared them in the face as it did long ago.

Time was when the center of the advertising stage was occupied by the St. Jacobs Oil people. That was before advertising was developed to its present extent and the projectors of what grew to be the best known family liniment in the world had the field of really big and liberal publicity to themselves.

"St. Jacobs Oil keeps away Rheumatic Pain, Backache, Neuralgia, Sprain, etc.," greeted one everywhere the eye rested, and in a few years the publicity, backed by the intrinsic worth of the preparation, brought a business of about two million dollars a year that has survived ever since, years after the advertising campaign had been completed.

The proprietors, it seems, have decided to place their product before the present generation as they did before the last, and, in pursuance of this policy "flashed" on the public again the old familiar announcements of a score of years ago.

It merely proves a good article, backed with proper advertising, never succumbs.

NOTICE.

The bridge north of Lowell park over Pine Creek will be closed for repairs for about one week or ten days, commencing Wednesday morning. DAIRY THE DAIRY

TO APPLY TUBERCULIN TEST

Has No Ill Effect Whatever on Healthy Cows and Does No Harm to Those Afflicted.

If a tuberculous cow has a small quantity of tuberculin introduced beneath the skin, a temporary fever will result, which can be detected by taking the temperature of the animal—a healthy animal shows no such fever.

Tuberculin has no ill effect, whatever, on healthy animals, and no harmful effect on tuberculous animals. It does not, in the amounts used in testing, have any effect on the progress of the disease in the animal, nor can it in any way produce the disease. With many herds it has been used regularly for 10 to 15 years with absolutely no injurious effects. The statements that the test causes abortion or other ailments are without foundation. The flow of milk is not changed to any appreciable extent, even in the case of tubercular animals.

The temperature of cattle, unlike that of man, varies widely, not only in different animals, but in the same animal at different times. The temperature of a cow is usually between 101-

Proper Method of Thrusting Syringe Through the Skin.

102 degrees F.; that of calves and of fat stock somewhat higher, while old cows and those low in vitality usually show somewhat lower temperatures.

By means of a hypodermic syringe, the tuberculin is injected beneath the skin the most convenient place for injection being just back or in front of the shoulders. This places the operator out of danger of being kicked. The injection may be made on the side toward the operator, or on the other side by reaching over the back of the animal. The skin is lifted up with one hand and the needle thrust through at right angles but parallel to the side of the animal so that the contents of the syringe may be discharged underneath the skin, but not into the muscles. The syringe should be provided with a "stop" so that a definite amount of tuberculin and no more can be easily injected.

The average of the temperatures before injection is determined and if the highest temperature after the injection is 2 degrees F. or more above the average normal, the animal is generally regarded as having given a positive reaction. Usually the rise in temperature of a tubercular animal is much greater—4 to 6 degrees F.—and there is no question as to the result. When the rise is close to 2 degrees the reaction is classed as doubtful. In all cases, and especially in the doubtful ones, the interpretation of the records should be made by an experienced person. Some reacting animals show the effects of the tuberculin by shivering, refusal to eat, etc. In some cases these symptoms are very noticeable, in others they do not appear at

Position of Operator When Inserting Needle From Opposite Side of Animal.

all. In the case of non-reacting animals, no such symptoms are ever noted.

The tuberculin test is not always absolutely correct, for a number of reasons, but when applied with judgment and care, it is correct in at least 95 per cent of the cases.

DAIRY NOTES

The tuberculin test will detect over 98 per cent of cases.

The profitable dairy cow is the one that is the best mother.

Churning should be done on time. Better put off something else.

The dairy farmer must look to his market as well as to his production.

Plans are worthless unless they are properly carried out after they are made.

Turning the separator too slowly will lose more cream than turning it too fast.

Sunshine, pure air and clean stables are necessary for successfully managing a dairy.

INVESTIGATION NEEDED.

Farm fires are becoming so numerous in Lee county that the problem is very serious, and official action should be taken to investigate every one of them and learn, if possible, the cause.

The Daniel Schuck fire yesterday is the latest of a series of blazes which has cost the farmers of this vicinity many thousands of dollars, and if there is a remedy, it will be a welcome one.

There are many who think that some of the fires, at least, have been of incendiary origin, and the nature of the fires lends grounds for this suspicion. If a fire-bug is roaming over this fair county putting torch to the property of her citizens, he should be laid by the heels. Fires of this sort hurt business and credit in a general way, as well as dealing a very crippling blow to the finances of the victim.

Anyone who has any information that might lead to the apprehension of the fire-bugs, if there are any, should notify the sheriff of the county at once.

TO MAKE INQUIRY.

Frank Sofolo, a fruit dealer at 222 First street, created a disturbance this morning on Galena avenue and was taken in charge by the officials. His daughter, Mrs. Rose Arrigo, signed a petition asking that his sanity be inquired into by the county court. The hearing will be held as soon as possible. Mr. Sofolo enjoys a good reputation generally, and his friends hope he will soon recover, if he has any mental derangement.

For Reference.

"See that man over there. He is a bombastic mutt, a windjammer nonentity, a false alarm, and an encumberer of the earth!" "Would you mind writing all that down for me?" "Why in the world—" "He's my husband, and I should like to use it on him some time."—Houston Post.

Suits that Give New Figure Lines

In the new silhouette, the most striking note is the tapering effect—the width just below the hips and the narrowing down about the feet.

Skirts are longer this season—as long as they can comfortably be worn—and must be draped close to follow the lines of the figure. Many of the most elegant new costumes show drapery at the front, but the skirt that is draped at the side vies for favor. Much of this new drapery flows down from the waistline, swelling somewhat below the hips; again it is introduced in plaits or gathers at the belt with the folds swinging off to right or left or caught in at the sides—styles which maintain the indispensable narrow effect about the ankles.

To be really in the height of the mode, the skirt must be slashed. The slash, as Bischof uses it, is generally the unstitched end of a deep lapped seam and is designed only to relieve the narrowness of the new skirt.

The coats, too, show the tapering effect. The important part the cutaway plays is seen everywhere in connection with the elongated panel back.

The sleeves also accentuate the long, sloping shoulder lines, most of them being of the Mandarin type set low on the arm. As these sleeves are long and fit the forearm closely, they are set into a large, pear-shaped armhole. In every Bischof garment a tiny gusset under the arm insures comfort, freedom and good service.

Come in and see how cleverly Bischof uses every one of these new style features.

You will find a wealth of suggestions—for he has thought out all your needs for Fall and Winter in garments that combine the most fashionable effects with moderate price. Come in and see this interesting collection now; make your selection before the choicest models are taken.

DIXON OPERA HOUSE

The bill at the opera house for Thursday, Friday, Saturday and Sunday is very good and you cannot afford to miss it. The Lavigne Sisters in their singing and acrobatic act are very good; Charles Varley, in character changes works before your eyes, and it is needless to say he is surpassed by none; the College Trio in their instrumental and singing act, receive unstinted applause, and Mile. Marie and her seven trained bears complete the bill showing very clever stunts and is well worth the price of admission alone.

FAMILY THEATRE

The bill at the Family is the best ever shown there. The Four DeKock Bros., an European acrobatic novelty, are excellent and perform feats never accomplished in this city before. Ray & Ray, eccentric entertainers, are also on the bill and are fine. The best and latest moving pictures are shown.

OPERA HOUSE

The Edison Talking Pictures: The seemingly impossible has at last been accomplished—moving picture that talk, laugh and sing. Thomas A. Edison, the wizard, has at last made this possible and these wonderful talking pictures will be seen at the opera house on Monday, Tuesday and Wednesday of next week. Mr. Edison does not claim that his pictures are the first talking pictures but he does claim that they are the first and only practical and genuine talking pictures perfected and presented to the public. The Edison talking pictures are genuine, that is, the film and record are taken simultaneously, and every sound and every action is faithfully reproduced.

THIS PARK IS BENCHLESS

Perhaps There is a Reason—Neighborhood Dwellers Use Sagging Chain as "Roost."

One of the shady public parks of Washington is without a bench. Perhaps there is a reason. The park is surrounded by an old-time iron post and chain barrier, and on this sagging chain many of the dwellers in the neighborhood of the park rest. One is almost inclined to write it "roost."

The asphalt walks of this public park were put down before the mixers and layers of this paving material were as experienced as they are now, for it is ruptured with numerous broad transverse fissures, out of which grass grows green and long. This cracked and grassy asphalt pavement is the first feature of the park which impresses one as unusual. Grass growing from a brick or stone pavement would not be so striking as a grass and asphalt combination. If the wayfarer in that park is looking for a bench he will also be impressed with another unusual feature of the reservation, for no benches are there.

Toward the east and the west sides of the square two little fountains with cement basins and cement-coated rubble copings feebly toss their puny streams in only a half-merry way.

In the center is a wicket-guarded circle bedded with red granitums. There are patches of bare turf in this park, worn by trespassers, and there are also spaces of baldness brought on by the shade of and the rain drippings from the trees.

It is not a fashionable neighborhood, and there are squares of cobblestone streets roundabout. The reservation is Rawlins park, at New York avenue and E street, between Eighteenth and Nineteenth streets. Over a wooden gateway on E street, opposite the north side of the park, is a sign that spells "Juvenile Court."

Man Known by His Hat.

A man may now be known by the hat he wears. And the man of the future, it seems, will be all head and hat.

Both hatters and doctors, the Daily Mirror of London, is informed, have been making some remarkable discoveries regarding the varying sizes of men's heads, and the reason why they wear certain kinds of hats.

For instance: The thoughtless, idle rich young man, who wears comical little green "squash" or Alpine hats decorated with feathers or ribbons, nearly always takes a very small size.

The heads of these youths, it is stated, are not sufficiently large for an ordinary hat.

A Club Cell.

Lansing Mizner of the California clan which has been made famous on this side of the continent by Wilson Mizner, the dramatist, dropped into the Union club of San Francisco one day. "Come into the library a minute," said a fellow member. Mizner shrank back. "Nay, nay!" he protested. "I might drop dead in there and they wouldn't find me for weeks."—New York Mail.

"CASCARETS" CLEANS LIVER AND BOWELS

Feel bulky! No headache, sour stomach, bad breath, constipation.

Get a 10-cent box now.

Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a gentle cleansing, too.

GRAFTER PLIES HIS GAME

Commandant of Cutter Service is the Latest to Assume the "Poor Hucker."

A stranger who makes at least one call on each prominent revenue cutter officer stationed in Washington paid a visit the other day to Captain Berthoff, commandant of the service.

The man, with apparent diffidence, threw a bag of peaches on the captain's desk and exclaimed:

"One good turn, captain, deserves another. You gave me a quarter when I was hard up and I want you to know I haven't forgotten it."

"Why, I don't remember the incident at all, but that's all right," replied the officer.

"Everything's all right, captain," said the stranger, "except that I need just \$2 to complete a huckster outfit."

Captain Berthoff is a charitable man, and he paid just \$2 for that 10-cent worth of peaches.

When he repeated the story to Captain Charles A. McAllister, engineer in chief of the service, the latter laughed cordially. "Stung," he chuckled. "That fellow has told the same story to all the rest of us during the last two years with exactly the same results."

Monument for Miss Hill.

There is a movement afoot to erect a monument to Miss Octavia Hill, the woman who gave a half century's demonstration of housing reform to English landlords. She proved, not by argument, but by the fact, that landlords of tenement houses could cut their rents in two, keep their houses in good repair and clean, and make 5 per cent. on their investments.

Ruskin, who put up a considerable sum for her experiment in 1864, reported in 1877 that he had had it all back in interest. Those who followed her work most closely seem to agree that her special efficacy in the getting of results lay in a combination of salutary strictness, which held the tenant to the mark, and a profound humanitarianism that was not for a minute obscured by this strictness.

There were 5,710 yards of concrete laid in September as against 16,761 in August. In the month of September 48,221 yards of fill were placed in dams and 92,147 the previous month.

KILL CATARRH GERM USE BOOTH'S HYOMEI

Try the sure and most effective way to reach the raw, tender inflamed mucous membrane infested with catarrh germs—breathe Hyomei. All druggists sell it.

You cannot reach the nooks and crevices of the breathing organs with liquid preparations; there is only one way—breathe a few times daily the germ destroying air of Booth's Hyomei. It acts directly on the inflamed membranes and destroys the catarrhal germs.

If you suffer from offensive breath raising of mucus, frequent sneezing, husky voice, discharge from the nose droppings in the throat, spasmodic coughing or any other symptoms of catarrh, use Hyomei at once. It will destroy the disease germs in the nose, throat and lungs, and give quick and permanent relief, or money refunded by Rowland Bros.

The complete outfit, including pocket inhaler and bottle of liquid, costs \$1.00, extra bottles of liquid if later needed, 50 cents.

DISHES FOR THE SUNDAY NIGHT SUPPER.

Sandwiches are always a favorite for a night lunch and it saves the serving of butter and cold meat.

Potato and Ham Sandwich.—Into a pint and a half of well seasoned and mashed potato stir two eggs without beating. Spread two tablespoonfuls of this potato out smoothly and lay on it a slice of neatly trimmed cold boiled ham; cover this with more of the potato; press the edges well together, laying in smoking hot fat and fry a delicate brown.

Cabbage Salad.—Chop a half head of cabbage rather fine, add one tablespoonful of sugar and half a tablespoonful of salt, pound with the potato masher until the juice begins to run, put into a salad bowl and pour over your cream.

A pretty pitcher may be used for the chocolate if one has no pot. The pot and cups must be hot.

Potatoes baked, scalloped, creamed or fried are good for a supper dish. Pineapple Cones.—Slices of pineapple heated with rice cream cheese and served with French dressing makes a most acceptable salad.

For dessert sponge cakes baked in gem pans and filled with whipped cream are most delightful.

Peaches and cream may be served any time of year for the canned peaches will answer when the fresh ones are out of the market.

Olive Squares.—Cut brown bread very thin, butter each slice and sprinkle lightly with pepper and salt, stone eight olives, chop them with two stalks of celery, one small sour pickle, a teaspoonful of catsup, a dash of salt, and a pinch of mustard. Mix well and spread on the bread. Cold meat, a very thin slice, may be added on the olive mixture.

Date Sandwiches.—Roll out light bread dough rather thin and butter well, spread with dates and lay the dough over, let rise, brush with milk and bake in a moderate oven. These are good either hot or cold.

A delicious hot biscuit is one made of baking powder, spread with butter and maple sugar grated, rolled up and cut in rings. Bake in a hot oven.

MRS. GEORGE W. GOETHALS

Mrs. George W. Goethals, wife of Colonel Goethals, the chief of the Panama canal builders, it is announced will be on the first boat that passes through the great ditch built by her husband and his assistant. CREW ACTED BRAVELY

Cap. Inch of Volturro Says They Were Not Cowards.

Eighty-Seven Survivors Reach New York—Master Says Vessel Fell on Sixty in Lifeboat.

New York, Oct. 17.—Capt. Francis Inch, master of the burned steamer Volturro, arrived here with 87 other survivors on the Kronland, and denied that the men of his ship had shown cowardice during the fire and the efforts to assist passengers to leave the ship in the lifeboats.

Captain Inch said there was no rush of seamen which made it necessary for him to warn them back with his revolver. His revolver was in a drawer in his cabin and it burned with the ship, he declared, and added no one on board drew a revolver.

The Volturro's master, besides defending his own officers and men, said he had no criticism to make of the tactics of any of the boats that stood by.

Inch denied stories of steerage passengers that persons were swept overboard and babies were trampled on during the efforts to reach the Grosser Kurfuerst's first boat that came Thursday night.

"Before I climbed down I went over the ship to see if anyone remained," Inch said. "The fire had eaten its way beyond amidships under the decks. I found no one alive, though there were bodies in the forecastle, men who had been cut off and burned to death."

"The loss of life by drowning is hard to think about now, when I realize that if I had kept them aboard they might have all been saved," he said. "But things looked bad indeed for us, and the boats were provisioned. The passengers were mad to get away and with so many people to handle it seemed the only thing to do to start some of them off. The first of these boats to be lowered was No. 2, in command of Chief Officer Miller."

"Those in the third boat, No. 7, in command of the boatswain, met an awful fate. As she hit the water she was swept astern. Just then the Volturro rose on a high sea. The boat was carried into the trough and as the Volturro came down she dropped squarely on top of the lifeboat. We literally sat on this boat and there wasn't a chance for a soul aboard. There were sixty in this boat, and one of the sixty was saved. That was the boatswain, who managed to catch hold of a line hanging astern and hauled himself aboard. Boats Nos. 1, 3 and 5 smashed as we were getting them swung out. All this took place between 7:20 and eight o'clock that morning. Then I heard that the Carmania was coming, and I sent an order that no more boats were to be launched."

U. S. Warships Prevent German Vessel Entering Harbor—Situation Critical.

NO REPORT AT WASHINGTON

Complications Expected to Arise by Action of Commander—Rebels Threaten City by Sea and Land Attack.

Cape Haitien, Oct. 17.—American warships blockading the port at Puerto Plata refused to permit the German steamship Syria, from Sanchez, to enter the harbor.

The situation at Puerto Plata is considered critical. The city is threatened with attack by land and sea. Foreigners are taking refuge on board vessels in the harbor.

Threatens to Land Troops.
The revolutionists have been advised by the American commander to stop hostilities. Otherwise, he says, troops will be landed. The American consul at Puerto Plata is urging all American citizens to leave the city.

War operations were resumed when the rebels refused to accept the terms of a treaty of peace that was brought about by James M. Sullivan, the American minister.

Politicians Leave Venezuela.

Willemstad, Curacao, Oct. 17.—The departure of prominent politicians from Venezuela continues. Gen. Trino Baptista, former minister of public instruction, has arrived at Buen Ayre. He was accompanied by Marco Antonio Freytes. Both are friends of Gen. Ramon Delgado Chabaud, who was imprisoned in August on suspicion that he was plotting against the president.

No Report at Washington.

Washington, Oct. 17.—No report has been received at the state department on the reported action of American warships refusing to permit the German steamship Syria to enter Puerto Plata. If this has been done complications with the German government over the situation there probably will arise.

SLAYS MAN FOR ATTACK

Chicagoan's Wife Confesses and Murder Follows.

Chicago, Oct. 17.—A telephone call, following a wife's written confession of an attack on her, lured Walter Paul to his death, and furnished the authorities with a murder case that promises to bring about arguments on the "unwritten law," when William Keith, the husband, is brought to trial for the deed. Paul, twenty-six years, a butcher, was shot and instantly killed in a saloon. Keith, the slayer, forty years old, 3706 West Huron street, after killing the man who, he declares, attacked his wife, calmly called up the police and submitted to arrest, with the revolver still in his hand.

The story told by Mrs. Rosebud Keith, the wife, was vivid and pathetic.

Mrs. Keith is thirty-five years old and came originally from the south. She has three daughters, Thelma, aged seventeen; Pearl, aged eight, and Chloe, aged five. Keith is superintendent of construction for the Aurora, Elgin & Chicago line at Havana, Ill. They were married seventeen years ago in Brookwood, Ala.

Atlanta Planter Charges Mother-in-Law Alienated Affections.

Chicago, Oct. 17.—Telamon Smity Cuyler, wealthy planter of Atlanta, Ga., filed a suit in the superior court here against Mrs. Isabella T. Barton, widow of the late Willard F. Barton of San Francisco for \$500,000 for alleged alienation of the affections of his wife, Grace Barton Cuyler.

Mr. Cuyler, who married Grace Barton in 1900 in San Francisco, left California on business last February, and while he was gone Mrs. Cuyler obtained a divorce after notice by publication, declaring her husband did not support her.

The unverified story then asked there were children whose custody the mother obtained. Through the action it was believed Mr. Cuyler hoped to open a way to recover these children.

SILK MANUFACTURER WHO LEFT MILLIONS TO HIS EMPLOYEES

When Herman Simon, perhaps the largest silk manufacturer in the United States, died in Easton, Pa., the other day, it became known that he had left a third of his fortune, estimated at \$9,000,000 to his employees. His was a business which he had spent thirty-six years in building, and he had come to the conclusion that his employees were entitled to some of the profit.

To his widow he leaves his two houses in Easton and residence at Union Hill (N. J.), his life insurance and \$10,000 in cash. The residue of his estate is to be divided into 2,000 parts.

Of these parts, Elizabeth Mary Simon, his wife, gets 666; his sister, Mrs. Emily Elbert of Frankfort-on-the-Main, Germany, 350; Mrs. Grace Bixler of Easton, daughter of Mrs. Simon by her former husband, 307 parts.

The remaining 677 parts, about one third of the estate, are divided among twenty-three persons, most of them employees, who receive from one to 195 parts apiece.

The will provides that if any of the beneficiaries have left Mr. Simon's employ or are dead, their share to be divided among the others. Direction is made that beneficiaries shall form a corporation to be known as the R. & H. Simon Company and continue the business. The will was dated June 25, 1906. There were no public bequests.

Mr. Simon's mills at Easton and Union Hill employed about 2,800 hands.

Rowing With the Legs.
 On the Jule lake, in the southern Shan states, which form a part of the province of Burma, the inhabitants, who live in dwellings built over the lake, row their long, narrow boats with their legs. This, says the Strand Magazine, is the only place in the world where men row in this style. It enables them to go at a good rate and to keep up the speed for a very long time without an "easy," for when they are tired of rowing with their arms they use their legs, and vice versa.

Musical Entertainment

As the long evenings approach we more than ever talk of home entertainment, and there is nothing that can do the trick like an EDISON DISC PHONOGRAPH.

It is pronounced by those who are musical critics to be the Most Wonderful Sound Reproducing Instrument Ever Made. And we firmly believe you will come to the same conclusion if you call at our store and hear it.

You will be sorry if you make a purchase of any instrument before you hear this Grand Type.

We especially invite you Tuesday or Saturday nights, or we will meet you any night by appointment. We place one of the instruments in your home on trial.
